Supervisors Approve Stop Signs in Joshua Tree

On Tuesday the Board of Supervisors approved adding stop signs to roads that intersect with Hilltop Drive and Sunset Road in Joshua Tree.

Stop signs will be installed at streets that intersect with Hilltop Drive from Sunburst Avenue to Sunset Road and along Sunset Road from Hilltop Drive to Twentynine Palms Highway.

County Transportation Department personnel noticed obstructions to motorists view in the area while conducting a traffic speed survey requested by the California Highway Patrol. Officials surveyed vehicle traffic counts before determining it was safest to permit traffic on Hilltop Drive and Sunset Road to flow freely while traffic entering from intersecting streets those must stop.

“This is a great example of our county transportation staff being proactive in their efforts to improve traffic safety,” said Third District Supervisor Dennis Hansberger. “It always takes time to get used to changes and putting stop signs where they haven’t been in the past is a change. I urge motorists to stay alert and drive safely,” Hansberger said.
